

# GRANDPA'S GREAT ESCAPE

Up, up and away... Grandpa and his grandson, Jack, are off on an adventure of a lifetime. Make your very own Spitfire and let your imagination take flight!

## INSTRUCTIONS:

- 1) Photocopy or trace this page then glue your copied page on to some strong card.
- 2) Colour in your camouflaged plane pieces, then cut them out carefully.
- 3) Fold the wing halves (A & B) along dotted line C and glue them together.
- 5) Glue the body of the plane (D & E) together EXCEPT for the tabs labelled 'FLAP'.
- 6) Fold the FLAPS back and glue them to the top of the wing in the area shown light green.
- 7) Fold the two halves of the rudder (F) along line G and glue them together.
- 8) Get a grown-up to help you use a craft knife to cut slits in the plane along lines I and J.
- 9) Now slot the rudder into the tail of the plane and the propeller (H) into the nose and you're ready! Chocks away!

**FACT:** Some Spitfires carried beer, not bombs, dropping them to their own troops!

**FACT:** The Spitfire was the most famous fighter plane of WWII!
