Key Stage 2 SATs
Mathematics Practice Test
Paper 2: Reasoning

| First name |  |
| :--- | :--- |
| Last name |  |
| Class |  |
| Score | $/ 35$ |

## Instructions

You may not use a calculator to answer any questions in this test.

## Questions and answers

- Follow the instructions for each question.
- Work as quickly and as carefully as you can.
- If you need to do working out, you can use the space around the question.
- Do not write over any barcodes.
- Some questions have a method box like this:

- For these questions, you may get a mark for showing your method.
- If you cannot do a question, go on to the next one.
- You can come back to it later, if you have time.
- If you finish before the end, go back and check your work.

## Marks

- The number under each line at the side of the page tells you the maximum number of marks for each question.

Key Stage 2 SATs
Mathematics Practice Test
Paper 2: Reasoning

1 Small boxes of chocolates contain 9 chocolates. How many boxes can be made from 630 chocolates?

1 mark

Key Stage 2 SATs
Mathematics Practice Test
Paper 2: Reasoning

2 Circle the calculation that gives the best approximation for $3.4 \times 12.7$
$34 \times 127$
$3 \times 12$
$3 \times 13$
$3.5 \times 12.5$

1 mark

3 Circle the largest amount in each pair

$$
\begin{aligned}
80 \mathrm{~cm} & -1 \mathrm{~m} \\
7.5 \mathrm{~kg} & -7005 \mathrm{~g} \\
13 \mathrm{~mm} & -0.13 \mathrm{~cm} \\
450 \mathrm{~g} & -4.05 \mathrm{~kg} \\
2 \mathrm{~m} & -200 \mathrm{~mm}
\end{aligned}
$$

Key Stage 2 SATs
Mathematics Practice Test
Paper 2: Reasoning

4 Write $\mathbf{T}$ or $\mathbf{F}$ in each box to indicate whether the statements given are true or false.
$\frac{1}{2}=50 \%$ $\square$
$0.4=\frac{2}{5}$ $\square$
$\frac{10}{80}=25 \%$ $\square$

1 mark

5 A sequence is made using counters:

Pattern number: 1
1

2

3

:

How many counters are needed to make the 6th pattern in the sequence?

1 mark

Write a formula for the number of counters (c) needed to make the $n$th pattern in the sequence.

$$
C=
$$

1 mark

6 The population of London in 2016 was 8.63 million. This is marked on the scale:

By 2025 the population of London is predicted to be 9.81 million. Draw an arrow to show the 2025 population on the scale above.

Paper 2: Reasoning

8

$$
\begin{aligned}
& \frac{1}{4} \times \frac{1}{2}=\square \\
& 1 \text { mark } \\
& 1 \text { mark }
\end{aligned}
$$

9 This table shows the vehicles seen by Class 6R when they did a traffic survey:

|  | Monday | Tuesday | Wednesday | Thursday | Friday |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Cars | 32 | 27 | 38 | 44 | 41 |
| Buses | 2 | 1 | 3 | 3 | 4 |
| Vans | 5 | 2 | 4 | 4 | 4 |
| Motorbikes | 2 | 5 | 3 | 2 | 3 |

On which day were the most vehicles counted?

1 mark

Calculate the mean number of motorbikes seen.

1 mark
$10 \quad 1 \mathrm{~cm}^{3}$ blocks have been used to make these shapes:

(not to scale)

Tick $(\sqrt{ })$ the shape that has the largest volume.

What is the length of one edge of a cube that has a volume of $64 \mathrm{~cm}^{3}$ ?

Key Stage 2 SATs
Mathematics Practice Test
Paper 2: Reasoning

11 Use 4 different digits to complete this multiplication calculation:

1 mark

12 Three identical triangles have been drawn on a coordinate grid:

The co-ordinates of the vertices of one triangle have been given.

What are the co-ordinates of vertex $A$ ?

1 mark
If these three triangles were drawn on 1 cm squared paper what would the area of one triangle be?

1 mark

Key Stage 2 SATs
Mathematics Practice Test
Paper 2: Reasoning

13 Round the numbers to nearest 100. Circle the two numbers that round to 1800

10891894184617321765

$$
50 \div \square=1.25 \times 2
$$

1 mark

153 feet is approximately 1 metre. 1 mile is approximately 1.6 kilometres. Kate and Kenny each ran for 15 minutes. Kenny ran 12,000 feet and Kate ran 2 miles.

How much further in kilometres did Kenny run than Kate? Show your method.

2 marks

16 This is a recipe that makes 30 chocolate chip cookies:

- 150 g butter
- 160 g sugar
- 225 g plain flour
- 1 large egg
- $1 / 2$ teaspoon bicarbonate of soda
- 200 g chocolate chips

Miss Watson wants to make $\mathbf{2 5}$ cookies for her class.
How much plain flour will she need?
Show your method.

The instructions and principles of this mark scheme closely follow the guidance in the 2016 national curriculum tests. We have deliberately not set a limited time for the test paper as a teacher may want to very it according to the standard individual children are working at.

The national curriculum test allows 40 minutes to complete this test.

Demand Descriptors
T = Working towards expected standard
E = Working at expected standard
$\mathrm{G}=$ Working at greater depth within expected standard

## Required answer Mark

Acceptable answer

| Content | NC | Level of |
| :---: | :---: | :---: |
| Domain Ref | strand | demand |

21
Award THREE marks for the correct answer of 12.5 m . If the answer is incorrect award TWO mark for evidence of an appropriate method e.g.

John $=x m$
Harry $=x+2.5 m$
James $=x+2.5 m+1 m$
$33 \mathrm{~m}=\mathrm{x}+(\mathrm{x}+2.5)+(\mathrm{x}+2.5+1)$
$33 m=3 x+6$
$33 m-6=3 x$
$27=3 x$
$9=x=$ John's jump
So James $=9+3.5=12.5 \mathrm{~m}$

## Balance of difficulty

 of questions in the paper5 marks at working towards
22 marks at the expected standard
8 marks at working at greater depth

Up to
2m

> Accept for ONE mark evidence of correct use of algebra, e.g:
> John $=x m$
> Harry $=x+2.5 m$
> James $=x+2.5 m+1 m$

OR
Accept for one mark a sensible trial and improvement method giving an incorrect answer.
Fractions E

## Thresholds

Working towards the expected standard: Criteria for 'working at the expected standard' have not been met.
Working at the expected standard: at least 11 of the 22 'expected' marks are obtained, together with all 5 of the working towards marks, but none of the 8 marks graded 'greater depth'. This mark is 16 out of 35 .

Working at greater depth: all of the 5 working toward marks are obtained, plus at least $90 \%$ of the 'expected' marks and at least $50 \%$ of the 'greater depth' marks. This mark is 29 out of 35.

## THIRD SPACE

LEARNING

## Third Space Learning <br> Year 6 Maths LATs Foundation

Prepare early for SATs with 1-to-1 tuition starting in September.
Our 1-to-1 Maths specialists will work with your target pupils to plug gaps, secure key concepts and develop problem solving skills.

Find out more here: http://bit.ly/Y6Maths

## "Third Space has done wonders for

 pupils' attitudes towards maths - they look forward to their sessions. Also the fact I can pick and choose qualify sessions is a huge asset.Lisa Graham, Deputy Head, St Hughes C-of-E Primary

# "My tutor understands when I don't get things right. She helps me through at a steady pace and always believes I can do it: ${ }^{\prime \prime}$ 

Millie, Year 5, Worcester
