

Year 2 - Half Term Homework

To complete our 'Continents and Oceans' geography work from this half term, the children are required to share what they know about a continent. In preparation for this, we would like the children to produce a fact file / poster for a continent of their choice over half-term which they can bring into school to share with their classmates.

Please support your child with researching some interesting facts about the continent they choose. This could include animals from that continent, names and facts about famous landmarks (both human and physical), what the weather is like etc.

Children have until Monday 17th November to complete this and can be as creative as they like with how they present their facts. We are happy for them to be created using a computer or handwritten. **We will be sharing the fact files / posters on Monday 17th November so please ensure that they are in school by then. Children are welcome to bring them into school before this date if they wish to.**

Many thanks for your support. If anyone needs any paper etc to complete this then please let us know.

Please see below for some examples.
